PROFESSIONAL SUMMARY

Experienced Software Developer with 2.5+ years of experience in developing scalable enterprise applications using .NET, .NET Core, C#, SQL Server, and Angular. Skilled in REST API development, third-party API integration, SQL query optimization, deadlock resolution, deployment, code review, and automation solutions. Strong expertise in enterprise SaaS product development, backend optimization, end-to-end module delivery, and client-focused solution implementation.

EXPERIENCE

Appstean Infotech Pvt. Ltd.

Software Developer

Dec 2023 – Present

Indore, M.P.

- Developing and maintaining scalable enterprise SaaS applications using .NET, SQL Server, and Angular
- Designing scalable REST APIs and integrating third-party systems for seamless business workflows
- Optimizing SQL queries, resolving deadlock issues, and improving backend system performance
- Developed dynamic automation utilities including automated stock statement generation systems
- Handling end-to-end module delivery including requirement analysis, development, testing, deployment, and production support
- Performing code reviews, debugging, deployment activities, and backend optimization
- Managing UAT deployments, client issue resolution, customization requests, and production support
- Contributing to AI-enabled enhancements and research-driven product improvements

YPSILON IT SOLUTION

Java Intern

Jun 2023 – Dec 2023

Katni, M.P.

- Worked on Core Java, Advanced Java, and SQL development concepts
- Developed multiple sample projects and a Hospital Management System project
- Participated in requirement analysis, solution design, and technical discussions

PROJECTS

Sales Automation Solution (Salesstrip SFA)

- Developed enterprise platform to automate sales workflows, reporting, and scheduling processes
- Implemented REST APIs, workflow automation modules, and reporting functionalities
- Improved application performance through backend optimization and SQL query tuning
- Handled deployment support, client customizations, and issue resolution within deadlines

Human Resource Management System (Arriba HRMS)

- Developed modules for onboarding, payroll, leave management, loan management, approvals, and resignation workflows
- Designed backend business logic and optimized database operations for HR management processes
- Contributed to deployment, testing, debugging, and production support activities

EDUCATION

Chandigarh University <i>Master of Computer Applications (MCA)</i>	2024 – 2026 Punjab, India
MMYVV Katni <i>Bachelor of Computer Applications (BCA)</i>	2020 – 2023 Katni, M.P.

ACHIEVEMENTS

- **Star Performer of the Year (2025–2026)** for outstanding contribution and performance in enterprise product development
- Received appreciation from multiple clients for delivering customizations and business solutions within strict deadlines

TECHNICAL SKILLS

Backend Technologies: .NET, .NET Core, C#, ASP.NET Web API
Frontend Technologies: Angular, HTML, CSS, JavaScript
Database: SQL Server, Stored Procedures, Query Optimization, Deadlock Resolution
Development & Tools: REST API Development, Third-Party API Integration, Git, Deployment, Code Review, Debugging, Azure
Core Expertise: SaaS Product Development, Automation Utilities, Performance Optimization, End-to-End Module Delivery, Client Handling, Team Handling
